

CELEBRATING A LEGACY OF TRANSFORMATION

AA Kenya enters a new chapter as Chairman Mr. Aggrey Jonathan K Bett honours Jinaro Kibet whose nine years of leadership helped transform the organisation, strengthen its foundations and position it for continued growth.

Aggrey Jonathan K Bett

Under Jinaro's chairmanship, and in close collaboration with our visionary and results-driven CEO, we completed AA Kenya's demutualisation and transformed the organisation into a modern, commercially driven public limited company. This shared commitment to translating strategy into action strengthened governance, accountability and innovation, creating a foundation for sustainable growth.

As I begin my tenure as Chairman, I reflect on the bold leadership that transformed AA Kenya and laid a strong foundation for its next chapter.

For nearly a decade, Jinaro Kibet, SC, helped reshape the future of AA Kenya. As I take up the role of Chairman of the Board, I am honoured to celebrate a legacy that changed not only our organisation's structure, but also its scale, ambition and impact.

Jinaro Kibet, SC

The progress is visible across our organisation. We grew from 36 branches to more than 100, expanded our portfolio from eight product lines to 26 and. In 2025, we surpassed KES 1 billion in revenue. Our net profit also rose by 83%. This is clear evidence of an institution growing in both reach and resilience. At the last AGM, you described serving this historic organisation through its transformation from a private members' club into a public company as the greatest honour of your professional journey. You also said you would step down confident in the Board, the management team and the enduring foundations that will guide AA Kenya through its next phase of growth.

I want to assure you that transformation now stands as one of the defining chapters in AA Kenya's history. Yet your legacy extends beyond these results: you leave AA Kenya a stronger institution with a clearer strategic direction and renewed confidence in its future.

As I begin this new chapter, I will carry forward the courage and prudent stewardship that defined your leadership. With our professional and deeply committed Board, our dynamic management team that turns ambition into results, we will build lasting shareholder value, uphold the highest standards of governance and deliver innovative mobility solutions that make a meaningful difference in the lives of our customers and communities.

Your contribution to the FIA stands as an exceptional chapter in your distinguished record of service. As President of ACTA, a member of senior FIA committees and a leading coordinator of the Federation's work across Africa, you gave the continent a stronger and more respected voice in global mobility. Your impact will be remembered not only for the responsibilities you held, but also for the unity, confidence and opportunities you created across Africa. As Francis Theuri assumes the position of ACTA president, I wish to congratulate him on this appointment after his election and appointment as the new President of the Automobile Association of Kenya. We are confident that he will build on your remarkable foundation, deepen our international engagement and advance the opportunities you helped create for AA Kenya and the continent.

On behalf of the Board, management, staff and the entire AA Kenya family, I thank you for your wise counsel, exceptional leadership and distinguished service. I invite every member of our community to carry this legacy forward.

I step into this role with deep gratitude, a strong sense of responsibility and an unwavering commitment to honouring this legacy while leading AA Kenya confidently into its next chapter.

Aggrey Jonathan K Bett
Chairman of the Board
